Dear Sir/Madam,

With due respect, I would like to share small summary of my journey in the education industry for your kind consideration and necessary action please. I am working as Principal at Star Public School, Lumshnong & I am responsible for strategy planning, organizational development and the academic development.

I have worked as Education Officer, CBSE Coordinator, CAS Coordinator, House Master, Presiding Officer and various other posts apart from teaching for over two decades of my experience. I have energy, enthusiasm and openness of vision, which is vital in the development of school and students in particular. I believe in participatory method of teaching & have proven excellent leadership and administrative skills in an educational environment along with demonstrating outstanding ability to develop a clear vision focusing on future development of the school. My style of work includes motivating, inspiring and challenging both staff and students, together with the knowledge and skills to achieve larger milestones. I have also had successful experience as a Head of Department at The Assam Valley School administering primary and secondary education in an international or multi-cultural community. I have experience of NCERT/CBSE, ICSE and IB with evidence of achieving high standards along with reviewing curriculums. I have had great experience as a people's manager while having the opportunity to effectively supervise and appraise teachers in my department fairly. I work with planning & have got strong organizational and management skills.

In context of schools, I have managed and coordinated departmental activities time to time. I believe in all round development (physical, mental, vital and spiritual) and not just academic. When it comes to students' progress, every student in my class is equally important and I give special attention to slow learners. I like being outdoor and have conducted various expeditions for my students in Arunachal and Assam. Such expeditions and outdoor activities play an important role in diverse learning and through them students are encouraged to learn by doing and experimenting. I am also enthusiastic about yoga and train students in proper breathing, concentration and meditation. I also conduct various public speaking & debating activities for my students.

I am supportive and helpful to my teaching and non-teaching staff but also quite clear around what expect of them. Being honest and truthful with students and colleagues is what defines a major aspect of my value system. Education of children is a partnership between students, teachers and parents. Parent must realize that not every child is unique and empowered with different skills and talent. It's our job to nurture them in the right direction together. I believe the aim of education is to know oneself, to control oneself. A teacher is a learner and a learner is a teacher. I teach for learning, for knowing and the joy it gives, however I also feel that teacher's duty is to suggest, not to impose.

Dilip Kumar

ABOUT ME

I grew up in Bokaro, Jharkhand, (erstwhile Bihar). and did my Bachelors and Masters In History and Hindi, followed by an M.Phil from the Kurukshetra University, a Certificate in Peace Education from the NCERT and went on to do an M. Ed in Education from IGNOU (Aligarh Muslim University Regional Centre). My tryst with education began with Vivekanand Kendra Vidyalaya, in Arunachal Pradesh as a teacher and Public Relation Officer in 1991.

My passion, dedication and expertise in education management and school operations along with a genuine interest in enabling an enjoyable, rewarding and positive learning experience for students is my forte. I strongly believe in the importance of paying personal attention on emotional growth of each child while working on improvement of parent-child relationship, conducting parental counselling, academic enhancement of low achievers and developing strategies to build self-confidence. I am fond of yoga, camping and travelling. I am married and a father of two children.
