PROFILE

I hold extensive knowledge in classroom management and various teaching methods so I am able to reach learners of all backgrounds. I enjoy helping students to reach their academic goals and gain an understanding of mathematical concepts. My lesson plans employ fun and creativity along with the concepts that are to be taught. Students find that I am an innovative teacher who uses a number of teaching methods and styles in order to produce effective results.

Experience creating targeted lesson plans to achieve curriculum requirements and facilitate a personalised approach to education while stimulating student's enjoyment and appreciation for learning.
